KETTAL
PRESS RELEASE

NEW ITEMS FOR KETTAL MESH BY PATRICIA URQUIOLA

Kettal Mesh is reminiscent of building facades that let in light and air while keeping the elements out.
It combines natural and industrial materials, hard and soft surfaces, and transparent and opaque volumes to create a family of outdoor furniture based on contrasts.
The expanded metal used for the sofa backrests and tables lends lightness while providing support for the cushions and wooden, aluminium and marble table tops.
The slight slope of the sofa armrests lends delicacy to this industrial structure and invites the user to sit back and relax. The sofa's solid wooden base and ample, comfortable upholstery give the impression of a cosy living room, only outdoors.
The Kettal Mesh collection is extended to include left and right corner modules, a central module and a bench, making the possible combinations endless. A dining table and a centre table have also been added.
The 'Terrain paints' and 'Terrain fabrics' colour palette is by Doshi-Levien.
