

emotional light

a-emotional light will participate in the Appartamento Spagnolo.

The Spanish lighting brand **a-emotional light** will be part of the companies selected for the Appartamento Spagnolo. **a-emotional light** is dedicated to the creation and production of handmade decorative luminaires with design as its main value. Handmade in an emotional way, the Spanish brand's lamps are present in more than 80 markets around the world. Next June 2022 **a-emotional light** designs will shine in the Appartamento Spagnolo initiative with the *Agasallo*, *Cambo*, *Hipatia*, *Nevo*, *Tempo* and *Virginia* collections.

Agasallo collection

Agasallo, which means "gift" in Galician, is the new collection of Héctor Serrano for **a-emotional light**. Its shapes and its hand-painted design generate unique light effects that are projected in the space creating a singular atmosphere. Available in four pendant sizes to combine and create large compositions, Agasallo can also be configured for outdoor use.

Cambo collection

Cambo is the new pendant lamp design fruit of the collaboration with the studio cenlitrosmetrocadrado. The word Cambo (of Galician origin) refers to a piece of wood with a hook at one end, a craft element present in the Galician tradition. With nature and the Galician environment as inspiration, cenlitrosmetrocadrado has designed the Cambo system based on the natural growth of plants, the branching and bifurcation of trees. Ricardo Tubío and Xabier Rilo's vision of the natural environment has given rise to a modular system that allows different designs to be configured with the same elements. Cambo consists of a beech wood structure with a water-based varnish that allows the material to be shown in its most natural form. With this peculiar structure, the painted stainless steel mesh is introduced in the lampshade of the lamp that holds the integrated LED light source.

Hipatia collection

Hipatia was a Greek Neoplatonic philosopher and teacher, originally from Egypt, who excelled in the fields of mathematics and astronomy in the early 5th century. She is considered one of the forerunners of modern science.

Hipatia is the first portable LED lamp of the brand **a-emotional light**. This lamp with IP64 valid for outdoors is a tribute to the philosopher and teacher precursor of modern science. This luminaire is handmade in Spain with high quality materials.

Nevo collection

Nevo is the brand's flagship design. The first lamp made with mesh and the ultimate representation of malleability and experimentation with the material. Organic, voluminous, elegant... This design highlights its curves, handmade, which make each of the lamps unique and different from all others. A design that seems to be alive, in constant evolution and movement, both for its shape and for the folds through which the light spreads. This is one of the most extensive collections of the brand, including pendants, table lamps, wall lamps and cascading compositions.

Tempo collection

Tempo Andante is a pendant lamp from the eponymous collection designed by Arturo Álvarez. Made of painted stainless steel mesh, it is hand-molded in Spain. The mesh, worked in fine folds, gives shape to two layers that overlap creating two models of luminaires full of dynamism. Two lively forms that delicately radiate light through their pores. Andante and Vivace, two forms that start from one. The representation of two instants generated by the same movement with different tempo.

Virginia collection

The collection designed by Arturo Alvarez, Virginia, is a tribute to Virginia Woolf the British writer considered one of the most prominent figures of the Anglo-Saxon modernist avant-garde of the twentieth century and international feminism highlighting the difficulties of women. This large pendant lamp with pure lines, allows compositions for large spaces. The luminaire is available in LED version and in its outdoor version with ip64.

ABOUT **a-emotional light**

a-emotional light is a Spanish lighting brand that emerged in 1994 in Galicia, Spain. The Spanish company is dedicated to the creation and production of hand-made decorative luminaires, as its main design value. Handmade and in an emotional way is what has made this brand present in more than 80 markets around the world and illuminate projects in Hyatt, Marriott, Pullman hotels, offices of the size of Google or Spotify and Michelin restaurants.

Its handmade lamps are inspired by nature and the organic shapes found in beaches and forests that surround the brand's designers. With more than 25 years of experience, **a-emotional light** has been recognized internationally with several awards for designs such as Gea, Bety and Fluo, some pieces being exhibited in museums such as the Museum of Decorative Arts in Barcelona.

Designing with their hands has allowed them to adapt to all the challenges proposed by design professionals. Using stainless steel mesh as their flagship material, they have worked on exceptional and custom designs to meet the demands of each space. Its technical department has brought large compositions to halls, offices, hotels, restaurants and homes around the world. All the colors, shapes and sizes that have been developed in these 25 years has become a know-how about lighting that allows them to continue working with emotion.
